Dr. Joshua Lederberg
Genetics Department
Stanford University
Palo Alto, California

Dear Josh,

I have been asked to arrange a session on chemical and biological warfare at the annual meeting of the American Society of Biological Chemists in San Francisco during the week June 13-18. The other evening I heard your lecture on the Stanford campus radio station and I conclude that this presentation would be of general interest to members of the society. Our program would be at 8 PM and probably on Wednesday, June 16. Besides yourself there would be one other speaker who would, I expect, deal with some aspect of the tear gas-herbicide situation in SE Asia.

Hoping that you can join us,

Sincerely,

J. B. Neilands

I am sorry this was shoved aside, so you had the discourtesy of a non-reply. But as you may have gathered, I was out of town at the time anyhow.

Contritely,

NEILANDS, J.B.
